Easy Bungee Bracelet

Materials:

Two 21-24 inch pieces of 1/8” bungee
Small Shoelace Charm
Magnet Clasps optional

{Cost for this project starts at $3.39}

Step 1: Find the center of one piece of cord and insert it down through one side of your shoelace charm.

Step 2: Bring both ends up through the loop and pull tight.

Step 3: With the two strands on one side, tie an overhand knot around the opposite two strands. Pull tight.

Repeat steps 1 and 2 with the other side.
Repeat step 3 with the other two strands. Trim and lightly melt any excess. These knots can either act as added decoration or can move to adjust the size of the bracelet.

Add your logo onto the included sticker for your shoelace charm. Spread a thin layer of super glue onto the back of your logo and insert it in the space on the charm. Let dry.

As an alternative to the knots, trim your cord to the desired length and glue them into a magnet clasp.
