Paracord Cross Knot Instructions

Form a loop with "A" crossing over "B"

Bring cord end "B" up and behind the bend and loop.

Continue with cord end "B" and bring it from the top down through the bend.

Pull "A" under and left of "B" forming a bend in "A".

Pull cord end "B" through the top loop from behind.

Start to tighten by alternately pulling on the cord ends and the loop until the knot forms.
Here are some examples of St. Patrick’s Day projects using the Cross Knot.
