Continue repeating steps 6 through 9 until you reach the length of your dog tag.

Once you reach the length of your dog tag, insert cord C up through the other end of the tag. Continue with steps 6 through 9 until you reach the end of the bracelet.

Before your last knot, insert cord C down through the center of the cords as shown, leaving a small loop.

Repeat one last knot with cord A going through the loop in cord C. Pull all cords tight.

For added security, use forceps to weave cord C under the knots in the back of the bracelet. Melt and trim all ends.
