Step 1: With the blue cord, start with a two strand double cow's hitch. See our tutorial for instructions with a change at step 5 reversing the directions so the working ends are in the middle.

Insert the grey cord through the two knots on one end with equal length on each side.

After the last step in the tutorial, bring both cord ends back to the beginning side and insert them down between the two hitch knots. You'll trim the ends later.

Step 2: Bring the right cord A over the right cords and under the last cord on the left.
**Step 3:** Bring the left cord B over the left cords and under the last cord on the right.

**Step 4:** Fold B up and insert it down above cord A and between the two cords on the right. Bring it across the back to the left side.

**Step 5:** Fold A up and insert it down between the two left cords as shown then bring it across the back to the right side.

**Step 6:** Bring B up through the top loop in the grey cord on the left as shown.

**Step 7:** Bring A up through the top loop of the grey cord on the right as shown.

**Step 8:** Fold B down and insert it between the two left cords and the space between the grey cords as shown.

World’s Largest Selection of Paracord – 1,000+ colors/patterns of 550 paracord at only $4.99 per 100 ft.

Step 9: Fold A down and insert it down between the two right cords and the space between the grey cords as shown.

Step 10: Tighten all the cords.

Repeat steps 2 through 10 until you reach the end of the bracelet. You can weave the cord ends back through the back side before trimming and melting the ends.

This made a 9 inch bracelet.
