For a 10 inch collar, use a 20 inch piece of
paracord and melt the ends together.
Attach paracord by bringing a loop down
through the buckle and other end down
through the loop. Repeat on other side.

With a separate 10 foot piece of paracord,
place the middle under the first piece of
paracord.

Step 3: Bring side A (now on the right) over the middle cords and under B

Step 4: Bring B under the middle cords and over A.

Step 5: Attach the D ring by bringing A through the ring, Then cross A over the middle cords and under B.

Step 6: Bring B under the middle cords and over A. Repeat steps 5 and 6 until the ring is fully attached.

Repeat steps 1 through 4 until you reach the other end.

Trim and melt the ends. *For a thicker collar, add a second piece of paracord and weave it over the first braid.
