Cullasaja River Bar Bracelet

Materials

One 7 ½ ft piece of 550 paracord

Two 3 ft pieces of 550 paracord

(Cost for this project starts at $3.98)

Step 1: Fold your long piece of paracord in half and cross the left side over the right.

Step 2: Fold one of the smaller pieces of paracord in half and insert the middle down through the loop of the first cord.

Step 3: Fold the second loop down the back side of the first loop. Then insert the strands of the second cord through the second loop to create a knot.

Step 4: Before tightening the knot, thread the third cord through the knot as shown with the middle of the cord at the knot.
Step 5: Wrap the long cord on the right over the two short cords on the right, then bring it up and through the loop it created. Pull snug.

Step 6: Bring the long cord on the right under the two short cords on the right. Then bring it over the two cords and under itself. Tighten the knot.

Step 7: Cross the two short left cords over the two short right cords.

Repeat steps 5 and 6 with both sides then repeat step 7. Continue until you reach the desired length.
Finish with a cobra knot by bringing the right side over the center cords and under the left cord.

Now bring the left cord behind the center cords and up through the loop created by the right cord. Pull tight.

Continue with bringing the left cord over the center cords and under the right.

Bring the right cord behind the center cords and up through the loop created by the left cord. Pull tight.

Trim and melt the long cords and two of the short cords leaving two cords for tying a finishing knot.

Tie a knot of your choice that will fit through your beginning loop. See our diamond knot tutorial for this knot.
This made a 9 inch bracelet
