Curling Millipede or Bootlace Bracelet

Materials:

Two 5 ft pieces of 550 paracord

3/8 or ½ inch buckle

{Cost for this project starts at $2.19}

Step 1: Melt and join both pieces of paracord together.

Step 2: Decide which color you want on the outside and insert that color near the center down into one side of the buckle.

Step 3: Pull both ends of the cord through the loop of cord and pull tight.

Step 4: Insert the cord ends down through the other side of the buckle and measure to the desired length.
Step 5: Bring one working end of cord on each side of the bracelet as shown.

Step 6: With the outside color cord on the left, form a loop across the bracelet as shown.

Step 7: Bring the right cord across the top of all three other cords.

Step 8: With the same right cord, wrap it around the back of the bracelet and up through the loop created by the left cord.

Pull the cords tight and push up toward the buckle to tighten. Repeat steps 6 through 8 until you reach the bottom.

Once you reach the end of the bracelet, trim and melt the ends.
