Daisy Paracord Bracelet

Materials:
One Aztec Sun Bar Bracelet
(see our other tutorials for instructions)
Two Feet Yellow 550 Paracord
Lacing Needle or Pliers
{Cost approximately $3.00}

Step 1: Attach yellow paracord to a lacing needle or use pliers to insert the cord in the bracelet as shown.
Thread the cord through until about an inch is showing.

Step 2: Thread the cord through the opposite side as shown. This will help secure the cord to the bracelet.

Step 3: Bring the cord around and use the tip of the lacing needle to push the cord through the first hole in the bracelet.
Push the cord through just enough to create the center of your daisy. Glue is optional in keeping the centers secure.

Continue threading the cord through alternating sides as shown by the arrows. Be sure to create your flower centers in step 3 along the way.

**Step 4:** Once you reach the end of the bracelet, secure the end of the cord by inserting it through each side similar to steps 1 and 2.

Trim and melt the ends of the yellow cord.
