Step 1: Make a four strand double cow's hitch with the black cord. See our [tutorial for instructions](#). Bring the working ends back through the first two cow's hitch knots to create six core strands.

paracordgalaxy.com

Step 3: Wrap the camo cord under and over the first core strand, then under and over the second and first strands. Repeat with the right side.

Step 2: Insert the camo cord through so the middle is at the knots. Insert the coyote cord end so the cord is to the right of the knots. Remember the numbering shown on this picture for the core strands.

Step 5: Wrap the camo cord down and around the first cord then down through the space it created as shown. Repeat with the other side.

Step 6: Bring the camo cord up between the second and third strands on each side.

Step 9: Insert the coyote cord down on the opposite side between cords 2 and 3.

paracordgalaxy.com

Repeat steps 5-9. You can also wait to insert your coyote cords until the end.
