Mini Light Saber

paracordgalaxy.com

Materials:

12 inches of 550 paracord

48 inches of micro cord

3mm skewer or dowel cut to 10 in.

{Cost for this project starts about \$0.89}

paracordgalaxy.com

If using a skewer, cut off the sharp end.

paracordgalaxy.com

Make sure your 550 paracord is at least an inch longer than your skewer.

paracordgalaxy.com

Remove the inner strands and insert the skewer. Melt the end of the paracord over the skewer and carefully pinch the end closed.

Step 1: Place the center of the micro cord behind the skewer. Bring the right side over the skewer and under the left side of the micro cord.

Step 2: Bring the left side behind the skewer and up through the loop created by the right side. Pull tight and position the knot close to the end of the skewer.

Step 3: Bring the left side of the micro cord over the skewer and under the right side.

Step 4: Take the right side of the micro cord under the skewer and up through the loop created by the left. Pull tight.

Repeat steps 1-4 until you reach the desired length, then turn it around to tie over your previous knots.

Repeat steps 1-4, then 1-2. Pull the last knot tight and secure. Trim and melt the excess.
