**Mini Fly Trap Dog Collar**

**Materials**
- Two 10 ft pieces of 550 paracord
- One 15 ft piece of 550 paracord
- ½ or 5/8 inch buckle
- One or two D Rings

(Cost for this project starts at $5.99)

**Step 1:** Start with the working ends of the first 15 ft piece of cord. Bring the left cord 1 under the left core strand and over the right core strand.

Use our two strand double cow's hitch tutorial to start this bracelet with the 15 ft piece of paracord. Be sure to add on your D rings as you tie your knots.

At the end with your working ends and with one 10 ft piece of cord, insert each end up through the two cow's hitch knots and pull so your middle is at the buckle.

Insert your second 10 ft piece of cord through the sides of the cow's hitch knots with the middle at the knots. Pull the knots tight.
Step 2: With right side of the first cord, bring cord 2 over cord 1, then under the right core strand and over the left core strand.

Step 3: Wrap the second 10 ft piece sides around cords 1 and 2 in between the core strands. Make sure the working ends are toward the middle.

Step 4: Cross the last cord ends with the right side over the left.

Step 5: Wrap the last cords around cords 1 and 2 on the left and right. Be sure they go up through the loop cords 1 and 2 make with the working ends on the outside. Pull all cords tight.

Step 6: Repeat steps 1 and 2 with the first cords.

Step 7: Cross the second color cords with the right side over the left.
Step 8: Wrap the second cords around cords 1 and 2 on the left and right sides with the cords coming up through the loops and the working ends toward the outside.

Step 9: Wrap the third cords around cords 1 and 2 where they meet in the middle of the core strands. Make sure the working ends are toward the middle. Pull all cords tight.

Repeat steps 1 through 9 until you reach the other buckle.

Use a lacing needle to weave all the cord ends through the bracelet to the back.

Weave the ends into a stitch or two on the back. Then trim and melt the excess.

Clip your leash into both d rings for added security and less pressure on the buckle if pulled. This made a 14 inch collar.
