Micro Cord Bracelet w/Anchor

Materials:

10 ft micro cord

One anchor charm

{Cost for this project starts at $2.28}

Step 1: Find the middle of your micro cord and loop it around the bottom of the anchor charm as shown.

Step 2: Thread the ends through the hole at the top of the anchor and pull until you reach the desired loop size.

Step 3: With the working ends coming up from the hole, move the right cord behind the center two cords and on top of the cord on the left.
**Step 4:** Bring the left cord over the center two cords and down through the loop on the right. Pull tight.

**Step 5:** Bring the left cord behind the center two cords and on top of the right cord.

**Step 6:** Take the right cord and bring it over the center two cords and down through the loop on the left. Pull tight.

Repeat steps 3 through 6 until you have a small loop. Check to make sure your anchor will fit through the loop. Then trim and melt the ends.

This bracelet used about 8 feet of micro cord for 6 inches of braid.
