**Paracord Person**

Materials:
- 12 inches of 550 paracord (gutted)
- 20 inches of 550 paracord (gutted)
- 20 inches of 550 paracord
- Skull bead

{Cost for this project starts at $1.99}

**Step 1:** Take your two pieces of gutted paracord and lay them as shown with the 12 inch piece (B) on top.

**Step 2:** Place the top strand of cord B under the left side of cord A as shown.

**Step 3:** Wrap the bottom side of cord B over the top side of cord B then behind the top of cord A. Bring the end up through the loop of cord B.

**Step 4:** Pull both ends of cord B tight until a knot forms. Adjust the knot so you have a two inch loop in cord A.

Patterns

Step 5: Place the middle of your third piece of paracord around the right cord as shown with side 1 over side 2.

Step 6: Bring side 1 behind the knot.

Step 7: Bring the end up through the loop in the third cord and pull tight to form a knot.

Step 8: Bring the right side of the third cord (1) across the top of the other three strands as shown.

Step 9: Wrap cord 1 around the three cords. It is helpful in the next steps to keep your loops small as you work.

Move the left and right cords up toward your top loop so they are out of the way as you work.
Step 10: Bring cord 2 up and behind your knot at the top.

Step 11: Bring the end of cord 2 down through the loop created by cord 1. Pull 1 and 2 tight to form a knot below the first.

Repeat steps 8 through 11 once or twice for the desired length of your “body”

Add a bead on the top loop. Tie an overhand knot in each gutted cord.

*If you find the knots for the body too difficult, try a basic cobra weave instead.

Trim and melt all ends. To attach to a zipper, insert the top loop through the hole then pull the person through the loop and pull tight.
