**Step 2:** Bring both cord ends up through the loop in the cord and pull tight.

paracordgalaxy.com

**Step 3:** Measure and fold both cords to the desired length with the working ends on the outsides.

**Step 4:** Bring the left working end behind the center cords.

**Step 5:** Bring the right working end behind the center strands.

**Step 6:** Wrap the right working end over then under the other three strands.

**Step 7:** Wrap the left working end over then under the other three strands. Be sure to keep your wraps tight and cross each side slightly. Push up toward the shackle as you work.

Repeat steps 6 and 7 until you have two small loops at the end. Tie a knot by first crossing the right cord over the center loops and under the left cord.

Now bring the left cord behind the center loops and up through the space created by the right cord. Pull tight.

Trim and melt the excess cord.

To put the bracelet on, put both loops on one end of the shackle.

Then insert the pin and adjust the cords over the pin.
