

Paracord Awareness Ribbon Bracelet

paracordgalaxy.com

Materials: cobra weave bracelet or 8-10 ft paracord

5-10 inches of paracord for ribbon

Lacing needle or pliers

Make a cobra weave bracelet. See our cobra bracelet tutorial for instructions. Find the center of the bracelet. We will use the spaces shown to add our ribbon.

Step 1: Using a lacing needle or pliers bring a 5-10 inch piece of paracord up through the bottom right space leaving about an inch.

Step 2: Bring the working end over and down through the space at the top. Make sure it comes to the right of the secured end.
