Step 1: Wrap the right side of the short cord through the middle and around the cords on the right.

Step 2: Wrap the working end of the right long cord under the three cords on the left, then over and down through the space it created. Pull tight.

Continue repeating steps 1 through 4 pulling all cords tight and pushing the cords tight toward the top. Near the end a lacing needle comes in handy.

paracordgalaxy.com

Once you reach the end with a nice tight weave, you can simply trim and melt the excess cords. If you want a little more security, lace the cords back through the bracelet before trimming.
