Continue repeating steps 2 through 5 until you have about an inch or two. Insert a spike between the two center strands and tighten the screw to secure.

paracordgalaxy.com

Continue repeating steps 2 through 5 a few more times then insert more spikes as you go.

Once you reach the desired length, trim and melt the right and left cords. You can also trim one of the center strands if desired on each end.

paracordgalaxy.com

Overlap the center strands with the ends going opposite directions. Using one of the trimmed cords, repeat steps 2 through 5 tying knots around the cords.
