**Step 1:** Measure about 1.5 feet from one end on both cords and fold. Lay one cord on top of the other with the short sides in the middle.

**Step 2:** With the cord on the bottom, create a loop in the top of the fold with the right side over the left.

**Step 3:** Bring the right side of the bottom cord up and insert it down through the loop creating a new loop. Pull the left side of that same cord to pull the first loop closed.

Adjust your new loop to be about 1 inch long. Your bracelet should look like this with B and C being your short ends.

We used about 7 feet in two colors for an 8 inch bracelet. This can vary depending on how tightly you space your knots.
