Step 1: With the yellow cord, create a four strand double cow's hitch. See our [tutorial for instructions](#). Insert the blue cord through the knots at the working end with equal length on each side.

Step 2: Bring the left side under the left two core strands and over the right two core strands. Repeat with the right side. Make sure your cord ends are not going through either loop.

Patterns

Step 5: Repeat steps 3 and 4 with the right side. You can pull some of the slack out of each cord at this point, but don't tighten too much.

Step 6: Attach a fid and bring both blue cords up through the center of the bracelet above where the yellow cords cross.

Step 7: Insert the left blue cord down between the two core strands and between the two blue pieces. Make sure it is above the yellow cord in the back.

Step 8: Repeat step 7 with the right blue cord. Pull all the knots snug.

Step 9: Weave the two yellow cords like you did in step 2 but make sure the blue cords are coming up through each loop.

Repeat steps 3-9 until you reach the end. Weave each end under a few knots on the back then trim and melt.
