Patterns

Step 5: Bring cord B behind the center cords and up through the loop created by cord A.

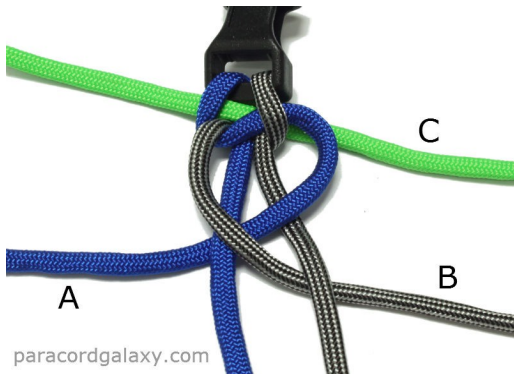

Step 6: Insert the end of the third cord C down through the loop created by cord A and above cord B.

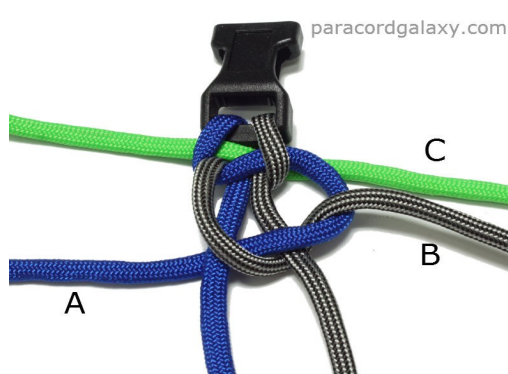

Step 7: With the long end of cord C insert it down between the two center cords. Pull A and B tight.

Step 8: Bring cord A down between the center cords.

Step 9: Now bring cord B down between the center cords and below cord A.

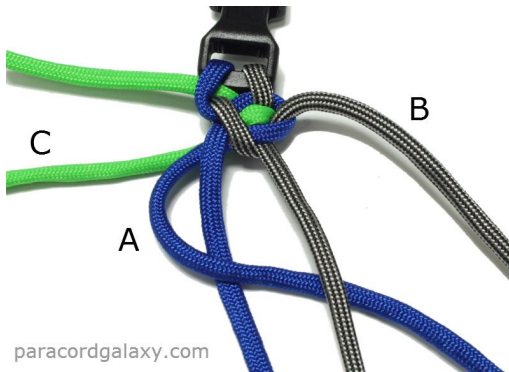

Step 10: Bring cord B behind the right center cord and up through the loop created by cord A.

Step 11: Bring cord C up through the loop created by cord A.

Step 12: Insert cord C between the center cords and above the place where cords A and B cross. Pull tight and push the knot up toward the buckle.

Repeat steps 8 through 12 keeping A, B, and C labeled the same as before.

Once you near the end, you may want to use a lacing needle or pliers to insert the cords into the middle.

Trim and melt all remaining ends.
