

ParacordGalaxy.com

New project tutorial:

Make a paracord lanyard with a quick-release connection.

This lanyard is perfect for keys, security badges, small tools and other items that you need right now!

We added a [Flat Magnetic Buckle](#) for a quick-release connection. This lets you quickly and easily remove and reattach items to your lanyard.

We used two colors and a total of 15 ft of [550 paracord](#) in making our lanyard.

Add beads or over-weaving to give your lanyard that custom look.

If you work around machinery or equipment with moving parts, add a [Pop-Barrel Buckle](#) as a safety release. Follow this link to [M. Shane Sullivan's article about safety buckles](#).

Paracord Lanyard Project Tutorial
