Put the two pieces of the buckle together.
Separate the cords.

Cut the micro cord in half and find the
middle of both pieces. Lay the middle of
both cords around the pin in the buckle.

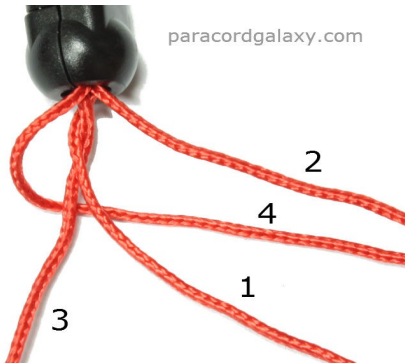

Step 1: Bring the top right cord 1 under
the center cords 2 and 3.

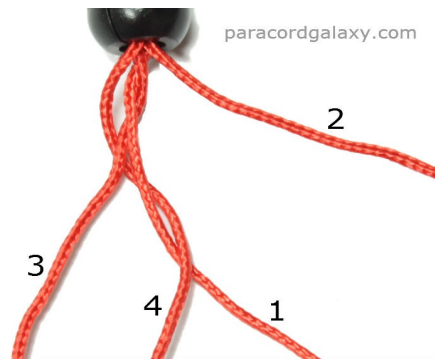

Step 2: Bring 1 over 3 so it lays between
the center cords.

Step 3: Repeat the same process with the top cord on the left 4. Bring 4 under the center two cords 3 and 1.

Step 4: Bring 4 over 1 so it lays between the center cords.

Repeat steps 1 through 4 with cords 2 and 3. You should see a braid start to form. Keep the cords tight as you braid.

Continue the steps until you reach the desired length. Add any beads or charms if desired.

Cut and melt the ends together. Put the melted end over the pin in the buckle and close the two pieces.

Three feet made about 6.5 inches of braid.
